

AntiBak

AntiBak Range of European Approved Products have been specifically designed to meet the needs of the food processor and caterer.

KEY PROPERTIES

- AntiBak Residual – is a unique product that provides round the clock disinfection for up to 7 days after application.
- AntiBak Pro – is a water soluble, non residual, taint-free, liquid biocide that is as effective as alcohol.
- AntiBak Wipes FG and AntiBak Wipes – are taint-free biocidal wipes that combine cleaning with disinfection.

ANTIBAK RESIDUAL

Specifically designed for disinfection of difficult to access areas in the food processing factory. It not only kills bacteria and fungi on contact but continues to do so for 7 days after application

- Residual 24/7 protection
- Biocidal, Fungicidal, Virucidal
- Alcohol Free/VOC Free
- Approved to EN1276, EN1650
- Dilute 1:20 for high level residual disinfection
- Dilute 1:100 for low level disinfection

ANTIBAK PRO

Non residual, odourless biocide that can be easily water rinsed prior to food contact.

- Biocidal, Fungicidal, Virucidal
- Alcohol Free/VOC Free
- Odourless
- Non-taint: TES-004
- Approved to EN1276, EN1650

ANTIBAK WIPES FG and ANTIBAK WIPES

Aqueous wipes that are designed for food manufacture areas and customer areas, respectively. Odourless and taint-free.

ANTIBAK WIPES FG

For the food manufacturing sector

- Biocidal
- Fungicidal
- Virucidal
- Non-taint: TES-004
- Non-Flammable
- Approved to EN1276, EN1650

ANTIBAK WIPES

For customer areas

- Biocidal
- Virucidal
- Non-taint: TES-004
- Non-Flammable
- Non-Irritant
- Approved to EN1276

ENDURO HAND SANITISER

An alcohol free foam approved to EN1276 with log 5 (99.999%) kill rate. It has a high skin tolerance, natural skin oils are preserved making it suitable for persistent antimicrobial activity. Helps inhibit bacterial growth on skin between hand washes.

- Biocidal • Effective against Gram positive bacteria
