

# AntiBak Pro

## Effective Disinfection for the Medical Sector

*Highly effective, internationally accredited disinfectant designed for rotation cleaning with Endurocide Residual or independently as a hard surface disinfectant.*

*AntiBak Pro is a concentrated, non-residual, non-flammable, odourless and taint-free biocide. Effective against a broad spectrum of fungi, yeasts, moulds and bacteria including E.Coli (0157), Salmonella enteritidis, Aspergillus niger, Clostridium difficile and Listeria monocytogenes.*

### KEY PROPERTIES

AntiBak Pro is taint and odour free, non-flammable and meets the requirements of the latest European Standards.

- Biocidal
- Fungicidal
- Odourless
- Non-tainting
- Effective against Gram positive bacteria

### APPROVALS

- EN1276\*
- EN1650\*\*
- Taint-free TES-004
- Listeria monocytogenes
- Clostridium difficile

\* Enterococcus hirae, Escherichia, Pseudomonas aeruginosa, Staphylococcus aureus.

\*\* Candida albicans, Aspergillus.

### TECHNICAL DATA

pH	11.0 – 11.5
SG at 20°C	1.01
Flash Point	>100 °C
Odour	None
Dilution	1:20 High level disinfection 1:100 Low level disinfection

### APPLICATION

- AntiBak Pro should be applied after surfaces have been thoroughly cleaned and rinsed.
- As with all biocides, surfaces should be water rinsed before coming into direct contact with food products.

### TYPICAL USES

- Recommended for applications in all open, hard surface cleaning processes. Compatible with a wide range of surface types. Typical applications include floors, walls, sluices, theaters, catering facilities and equipment. Apply by pressure cleaning or contact cleaning

### PACKAGING

1 Ltr T/Spray, 5L, 20L, 200L and 1000L Containers.

### SAFE HANDLING

Store in original containers and avoid extremes of temperature.
