

Bio TA

Biological Oil Stain Remover, Tarmac and Asphalt Surfaces

A new approach to the removal of oil stains on Tarmac and Asphalt oil contaminated surfaces.

A biological oil stain remover that rapidly removes and digests oil contamination. Will not erode or degrade Tarmac or Asphalt Surfaces.

KEY PROPERTIES

Easy to use, biological product that removes and degrades oil stains.

Contains a blend of biological enzymes, liquid bacteria and biodegradable surfactants.

- Biodegradable
- Biological
- Tarmac Friendly

APPROVALS

- German UBA (No 3406-0027)
- Environmentally acceptable chemical

TECHNICAL DATA

Appearance	Cream Liquid
S.G.	0.98 – 1.02
Bacteria Count	2×10^7 cfu/ml

APPLICATION

- Shake container before use. Water wet the oil stain before applying Bio TA.
- Apply neat to the oil stain and brush in. Leave for 10-15 minutes and rinse clean.

NB: Oil stains degrade Tarmac and Asphalt leaving behind an etched surface which appears as a dark stain – this cannot be removed.

PACKAGING

20 Ltr, 4x5 Ltr, 1 Ltr.

SAFE HANDLING

Store in original containers and avoid extremes of temperature.
