

OT8 FC

Biological Floor Cleaner

OT8 FC is a dual acting product. It cleans oil contaminated floors and biologically digests its own rinse water.

KEY PROPERTIES

A combination of liquid enzymes, bacteria and biodegradable cleaning surfactants which rapidly destabilise oil emulsions enabling contaminated floors and surfaces to be rinsed clean.

The rinse water is both emulsion free and biologically enhanced enabling the bacteria and enzymes to significantly reduce oil discharges to the environment.

- Biological
- Biodegradable
- Separator Friendly

APPROVALS

- German UBA (3406-0001)
 - Environmentally acceptable chemical
- Separator Friendly
 - Meets pr EN 858
- Environmental Agency UK

APPLICATION

- Shake before use (to put bacteria into suspension).
- Water wet the oil stain before applying, brush into the stain until OT8 FC changes colour (from white to brown), leave for 10-15 minutes and rinse clean.
- Dilute to between 4-8% for use by floor cleaner, pressure cleaner or manual application.

TECHNICAL DATA

Appearance	Opaque White Liquid
S.G.	0.95
pH	7.0
VOC	28%
Bacterial Count	0.5×10^7 cfu/ml

PACKAGING

20 Ltr, 4x5 Ltr.

SAFE HANDLING

Store in original containers.
