Re: REACH and Substance of Very High Concern,

Dear Sir/Madam,

With the first published list of substance of very high concern (SVHC) on October 20th, 2008, Rozone would like to assure its customers that all of the products currently supplied **do not** contain any of the listed concerned articles.

All of the chemicals in their raw state contained within the products have been pre-registered by Rozone in accordance with the European Chemical Agency (ECHA) and a registration number assigned and deadline date identified. We will be frequently adding REACH updates to the Rozone website which can be found under the technical support heading or alternatively at:

<http://www.rozone.co.uk/pages/pages/reach.php>

If you have any further questions regarding REACH registration, please do not hesitate to contact me at: clare.rowe@rozone.co.uk

Yours Sincerely,

Dr Clare Rowe

Quality Manager
