CFT Staintech Gel

22000684/6x500ml

<i>Application</i>	Spotter Gel – Removal of Tar, Chewing gum, Ink and Grease.
<i>Features & Benefits</i>	<ul style="list-style-type: none"> • Versatile solvency for a wide range of stains • Resists spreading/seeping through to fabric backing • Fully extractable • Excellent on chewing gum and resins
<i>Dilution</i>	This product is supplied ready to use.
<i>Equipment Required</i>	<ul style="list-style-type: none"> • Applicator Pads/Cloth • Warm water for rinsing / extraction machine. • Short bristled brush
<i>Use Instructions</i>	<ol style="list-style-type: none"> 1. Remove loose soiling/large debris 2. Shake the bottle and apply a small amount directly to the stain or apply via a white pad. 3. Agitate by dabbing or tamping with a short bristled brush. 4. Allow to dwell for a few minutes before absorbing residues into a clean dry cloth. 5. Then dab gently with a warm/wet cloth / rinse extract. 6. Repeat until the stain is gone.
<i>Hints & Tips</i>	<p><i>This treatment is always best conducted prior to extraction cleaning.</i></p> <p><i>Always work from the outside of the stain inwards to prevent spreading the stain.</i></p> <p><i>Always blot. Do not be tempted to rub the stain as this will spread the stain.</i></p> <p><i>It is always better to repeat application with small quantities than apply large quantities of product as this will only spread the stain.</i></p>
<i>Precautions</i>	<p>Use all PPE advised in MSDS and COSHH Assessment</p> <p>Test on an inconspicuous area of material using a clean cloth first to ensure compatibility. Look for signs of dye transfer.</p> <p>Note some flooring adhesives (latex, acrylic/bitumen) soften in the presence of solvents. Exercise caution to prevent over-soaking through to the base material.</p>
