<i>Application</i>	Powerful Rust Remover & De-Scaler
<i>Features & Benefits</i>	<ul style="list-style-type: none"> • Safe but powerful acidic de-scaler and rust remover • Thickened formula gives prolonged contact time • Safe on most metal surfaces including stainless steel • Contains corrosion inhibitors for added protection
<i>Dilution</i>	<p>Light Soiling: 30% (300ml made up to 1litre)</p> <p>Medium/Heavy Soiling: 50% (500ml made up to 1litre)</p> <p>Note: In some circumstances product may be used neat.</p>
<i>Equipment Required</i>	Rags, pads or brushes
<i>Use Instructions</i>	<ol style="list-style-type: none"> 1. Remove loose contamination with a dry wipe, brush or vacuum cleaner. 2. Apply diluted product to items with a brush or low-abrasion pad and leave to work for approximately 5 to 10 minutes. 3. Agitate as required (white hand pads are great for this). 4. Items requiring de-rusting can be left immersed for up to 60 minutes in a dilute solution. Check for progress periodically to avoid over-exposure. 5. Rinse off with fresh water. 6. Dry the surface with a clean towel. 7. Where the surface is likely to corrode (e.g. mild steel, cast iron) treat with RES Protech or RES Maintain.
<i>Hints & Tips</i>	<i>Let the product do the work by allowing dwell time.</i>
<i>Precautions</i>	<p>Use all PPE advised in MSDS and COSHH Assessment</p> <p>If in doubt test on an inconspicuous area to check compatibility</p> <p>Inadequate rinsing will leave sticky residues</p>
