

<i>Application</i>	High Power Performance Cleaner with Additional Detergency
<i>Features & Benefits</i>	<ul style="list-style-type: none"> • Fast mobilisation of soiling on all surfaces • Excellent suspension of soiling makes for easier cleaning • Safer water-based solvents added for faster action • Low Alkaline pH – safer for use on all surfaces
<i>Dilution</i>	Light Soiling: 5% (20:1) Heavy to Medium Soiling: 20% (5:1)
<i>Equipment Required</i>	Bucket, Sprayers, Rags or pads
<i>Use Instructions</i>	<p>Cleaning of Walls and other hard surfaces</p> <ol style="list-style-type: none"> 1. Dilute product as required. 2. Apply with hand-held sprayer or cloth. 3. Agitate as required 4. Allow to penetrate but do not leave to dry. 5. Wipe off with wet absorbent cloth. 6. Rinse if required <p>Cleaning items by immersion</p> <ol style="list-style-type: none"> 1. Dilute product as required. 2. Immerse items. 3. Agitate in solution. 4. Dry using absorbent cloths. 5. Replace solution as required.
<i>Hints & Tips</i>	<p><i>Applying with a sprayer cuts down on wasted product.</i></p> <p><i>Agitate with White Hand Pad. This will significantly speed up cleaning process</i></p>
<i>Precautions</i>	Use all PPE advised in MSDS and COSHH Assessment

	Product will not perform any better at over 20% dilution rate – in fact this will require more rinsing.
--	---

	Do not allow product to dry on as this also makes for difficult rinsing.
