DAMAGE RESTORATION

www.rozone.co.uk

TRIED, TESTED AND TRUSTED TO DELIVER

Few emergencies parallel the devastation that fires and floods – two of nature’s most destructive forces – can cause to homes and businesses. Fire, smoke and water damage can be direct or secondary, varying from the superficial to the highly pervasive.

Different materials when burnt create distinct types of smoke deposits, which can penetrate non-sealed areas of a building. The damage caused by wet smoke, dry smoke, fuel, oil and soot deposits often requires specialist cleaning technologies.

Similarly, water damage’s hygiene implications and secondary effects – including corrosion, mould or mildew growth and structural deterioration – often necessitate specially formulated chemical treatments.

Rozone has exceptional understanding of the unique challenges associated with fire, smoke and water reinstatement and odour removal. This is borne from over 20 years experience in the formulation and supply of chemicals specifically designed to address these problems.

OUR RANGE INCLUDES:

DAMAGE RESTORATION CLEANERS & DEGREASERS

- Specifically designed products to address superficial post fire or flood damage to all surfaces, including plasterwork, woodwork, laminates, glass and metals including industrial strength formulations designed for heavy duty use on tough fire and flood remediation applications of any scale.

DAMAGE RESTORATION SANITISING & ODOUR CONTROL

- Sanitation and odour removal often go hand in hand, so Rozone has developed a selection of products that may well exceed your expectations in removing lingering smells and reinstating the required levels of hygiene and cleanliness within the environment.

DAMAGE RESTORATION CORROSION CONTROL

- “Problem solvers” for all types of corrosion and damage to metal surfaces. The range includes products for cleaning surfaces and protecting them, ensuring their usability and longevity.

Our industry know-how enables us to create class leading solutions for the restoration industry that effectively clean, protect and restore.

The removal of micro-particulate soot, for instance, calls for specialist chemicals rather than general purpose cleaners. Odour elimination requires intensive and specialist treatment, particularly when odours are trapped behind new paintwork. Flood water may be contaminated, necessitating effective sanitisation products. Whatever the scenario and irrespective of its complexity or scale, Rozone’s expertise will guide you to the right solution.

Our products and services within Damage Management range from concept and formulation, production and distribution, to training and ongoing additional technical and business management support. Our goal has been to develop products and technologies that solve problems for our customers whilst at the same time controlling costs, protecting health and well-being of staff and operatives, and equally importantly lowering the impact on the environment.

DAMAGE RESTORATION ENCAPSULATION

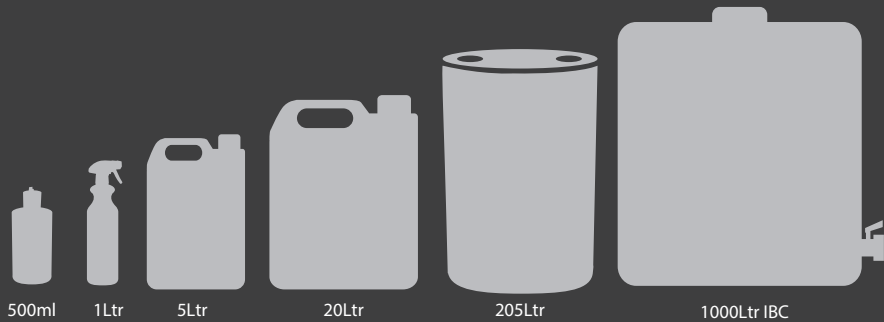

- Hard working products geared at tackling problems with post fire or flood odours and contaminants, ideal for preparing surfaces prior to redecoration by preventing soot particle seepage.

DAMAGE RESTORATION FINISHING PRODUCTS

- High performance range of finishing solutions specifically designed to restore plastics, fabrics and stainless steel to their former glory.

DAMAGE RESTORATION CLEANERS & DEGREASERS

RES RESTORE CLEAN

- Light/medium alkaline surface cleaner that dries quickly and leaves a great finish
- Cuts through and removes soot deposits with ease
- Great all round cleaner, just adjust the dilution to take on anything from dust to a house fire
- Solvent free
- Neutral pH

SIZE: 2 X 5Ltr
CODE: 22000761

RES POWER HEAVY DUTY

- Heavy duty alkaline surface cleaner, ideal with tough fires
- Heavy duty performance for severe contamination
- Can be used where caustic products are unsuitable
- Excellent on grease and oil contaminated surfaces

SIZE: 2 X 5Ltr 20Ltr
CODE: 22000658 22000930

RES EXTREME

- A tougher degreaser for pyrolised fats and metal complexed polymers
- Typical use would be commercial kitchen fires
- Powerful alkaline blend for effortless removal of heavy staining
- Enhanced solvency for removal of burnt on fats and grease

SIZE: 2 X 5Ltr
CODE: 22000937

RES GREASE & CARBON

- Very high alkaline deep cleaner to combat resinous grease and carbon removal eg. oven cleaning
- NOT designed for use on aluminium products
- Very heavy duty removal of burnt on deposits
- Highly alkaline formula for fast action
- Attacks grease and oils and vegetable proteins

SIZE: 2 X 5Ltr
CODE: 22000755

pH Level

SEE OUR OTHER BROCHURES FOR ADDITIONAL PRODUCTS

RES GLACIER EXTRA

- Use for cleaning and light stain removal on glass, enamel, ceramics
- Apply and clean off using cotton cloth
- Fast acting and non-smear finish
- Efficient on very greasy surfaces
- Contains no alcohol

SIZE: 6 X 1Ltr 2 X 5Ltr
CODE: 22000753 22000754

MOULD & MILDEW REMOVER

- Powerful removal of ingrained mould and mildew stains from non-porous surfaces
- Suitable on most surfaces
- Excellent water rinse ability

SIZE: 2 X 5Ltr 20Ltr 205Ltr
CODE: 22001432 22001433 22001434

RES SOLV TECH HEAVY DUTY

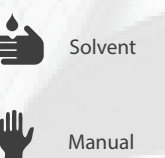

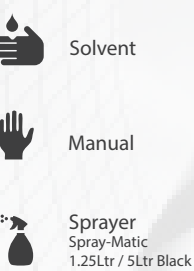

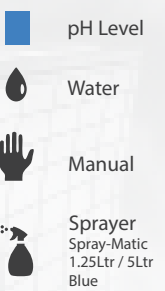

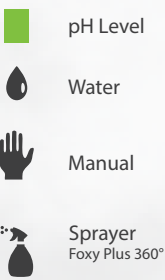

- Heavy duty solvent cleaner for difficult oil and resinous soiling, non aromatic
- Powerful action against tough soils including bitumen, tar and fat
- High purity, low odour solvent base
- Low flammability, low toxicity formulation

SIZE: 6 X 500ML
CODE: 22000771

RES IPA

- Fast drying alcohol for electrical cleaning
- High purity, suitable for cleaning electrical items
- Rapid evaporation, fast drying

SIZE: 20Ltr
CODE: 22000756

RES SANITECH

- For sanitising and odour control in non-food environments, controls contamination post flood and carries a fragrance Contains three broad-spectrum biocides
- Passes the latest and most stringent European Standards and conforms to EN13697 and EN1650
- Safe and effective disinfection and odour control
- Effective even against resistant organisms e.g. Psuedomonas aeruginosa and Aspergillus niger
- Contains a pleasant fragrance to mask musty odours
- Must be diluted before use

SIZE: 2 X 5Ltr
CODE: 22000765

RES SANITECH FOOD SAFE

- For sanitising and odour control in food processing environments and kitchens where you don't want to leave any taint or fragrance
- Highly effective disinfection for food preparation
- Contains three broad-spectrum actives
- No odour, no contamination risk, must be diluted before use
- Effective even against resistant organisms e.g. Psuedomonas aeruginosa and Aspergillus niger
- Passes the latest and most stringent European Standards and conforms to EN13697 and EN1650

SIZE: 2 X 5Ltr
CODE: 22000767

RES ODOUR TECH READY TO USE ORCHID

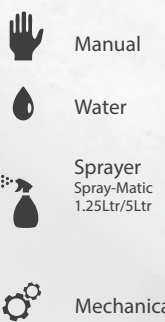

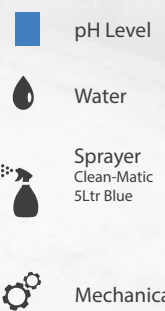

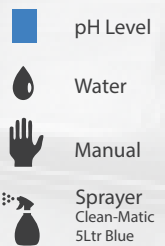

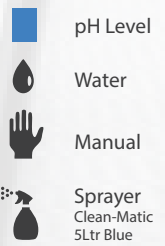

- Multi-function odour neutraliser
- Suitable for spray, wet and both hot and cold fogging
- Suitable for settling soot particles out of the air and shares all the benefits of odour control
- Physically binds odourant molecules preventing their release
- Effective against majority of odours
- Suitable for use on wide range of fabrics and soft furnishings

SIZE: 2 X 5Ltr
CODE: 22000759

RES ODOUR CONTROL CONCENTRATE

- Multi-function odour neutraliser
- Neutralises odour at particle level
- Effective against majority of odours
- This product removes odour without leaving persistent chemical odour
- Highly concentrated formula
- Suitable for wet fogging
- NOT SUITABLE for Thermal Fogging
- Can be used with equipment such as carpet extractor and washing machine
- Can be added to cleaning solutions
- Can be used in most applications including carpet cleaning

SIZE: 6 X 500ML
CODE: 22000758

RES CITRI TECH

- For galvanised steel cleaning and stainless steel corrosion removal and cleaning
- Can remove rust and limescale amongst many other items
- Safe but powerful acidic de-scaler and rust remover
- Thickened formula gives prolonged contact time
- Contains corrosion inhibitors for added protection

SIZE: 2 X 5Ltr
CODE: 22000747

RES DERUST

- Corrosion removal for mild steel, aluminium and certain other alloys
- Removal of corrosion, atmospheric tarnish and de-scaler (hard water)
- Designed for commercial industrial jobs and should rarely be used on domestic jobs
- Excellent for single stage cleaning and de-rusting
- Will remove grease and oil marks during use
- Safe on mild and stainless steel

SIZE: 2 X 5Ltr
CODE: 22000749

RES MAINTAIN

- For light corrosion control immediately post fire and flood
 - Ideal for dewatering, release and lubrication
 - Multi-purpose maintenance spray
 - Will generally only be used in industrial applications
- Excellent penetrating: frees seized joints and threads
 - Corrosion protection
 - Leaves a light lubricant film on sensitive metals

SIZE: 6 X 500ml 2 x 5Ltr
CODE: 22000941 22001235

RES SOOTLOCK

- Sprayable sealant
- Can be used on many surfaces
- Clear encapsulation spray dries clear
- Prevents soil and odour bleed
- Breathable

SIZE: 2 X 5Ltr
CODE: 22000773

RES SMOKE SEAL

- Sealant for control of odour, carbon and airborne contamination
- Dries white in colour ideal prior to redecoration
- This product is extremely substantial, offering an absolute seal
- Encapsulation of smoke, odours and all types of asbestos improves flame retardancy
- Independently tested to BS476 Part 6 Class 0 (Fire Propagation Index, Escape Routes)

SIZE: 1 X 10Ltr BUCKET
CODE: 22000769

PEELABLE LATEX CLEANER

- Cleans practically all surfaces
- Cleans sensitive, valuable substrates
- Easy to apply by spray or brush
- Allows further utilisation of the spaces since no dirt or dust develops
- Minimises the problems of disposal
- No water, no mess

SIZE: 1 X 500ML 1 X 18KG
CODE: 22001232 (SAMPLE AVAILABLE UPON REQUEST) 22001028

ECO STRIP/PAINT & VARNISH REMOVER

- Aromatic free
- Water rinseable

RES PLASTIC & COATING RENOVATOR

- For general spot cleaning on water washable surfaces and renovation of plastics
- Removes scuff marks and sticky tape residue, ingrained soiling, glues and gums
- Penetrates quickly to loosen and lift soiling
- Thickened formula provides long contact time
- Low toxicity, low VOC-safer to use in confined areas
- Water based formula rinses quickly and easily

SIZE: 6 X 500ml
CODE: 22000913

RES SURFACE ENHANCER

- For restoration and enhancement of furniture surfaces eg. plastics, stainless steel
- Contains silicon, not to be used on French polished finishes
- Produces a bright resilient shine
- Quick and easy to use
- Resists re-soiling

SIZE: 6 X 1Ltr
CODE: 22000775

- pH Level

TRUSTED ADVISORS

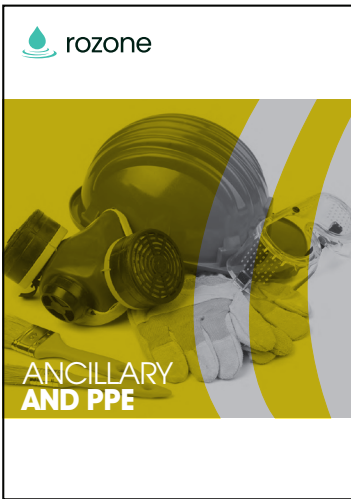

Our customers can be guaranteed that if it is a Rozone product, it will have a lower environmental impact than traditional alternatives and it will assist compliance with legislation. As trusted advisors we aim to help companies:

- Raise the standard of presentation
- Reduce waste production
- Cost Control: Best Practice in cleaning and presentation can save and make you money
- Health & Safety: Improve work environment and safeguard employees
- Environment: Lower impact on the environment

Our range of own formulation chemical products, have all been designed, formulated and manufactured in our UK plant to a constantly high standard with quality control and full traceability across all lines. Wherever possible we use the latest available proven technologies within our formulations and products, with our team of chemists and microbiologists constantly exploring what's possible. All the raw materials used in our products are REACH compliant and we are fully aware of our legislative obligations and requirements - using Rozone's cleaning products on a regular basis means you have an element of compliance built in.

ONE STOP SHOP

We've learnt over the years that use of correct application equipment can have a huge effect on the efficiency and efficacy of cleaning operations and that's why we don't just supply the cleaning product itself. We have a range of cleaning machines, application equipment and ancillary goods to compliment our chemicals so your cleaning operations can be performed to the highest standards.
